

SilentFiber™ Poly Panel

Silent Fiber™ Poly Panels are covered Acoustical Wall Panels manufactured from 100% polyester fiber, bonded by using heat instead of traditional chemical binders.

Glues tend to break down over time, releasing formaldehyde which may create health concerns. Unlike other boards, there are NO glues used in making these Poly Panels, therefore NO formaldehyde is stored in or release from these boards.

Features:

- Formaldehyde-Free
- Environmentally-Friendly
- No binding agents or odors
- Made from 100% recyclable fire Rated material
- No risk of skin irritation or respiratory problems
- Naturally resistant to moisture, vermin, insects, mold and bacteria
- Extremely resilient and impact resistant
- Can be used as a tack board
- Not manufactured of "Itchy" fiberglass

Product Info:

- NRC rating of 0.70
- 1" thick, 24" x 48"
- 6 lb. density
- Sold in packs of 10
- Square edge

Colors Available:

- Cream
- Gray
