

SilentFiber™ Fiberglass Board

The SilentFiber™ Fiberglass boards are a rigid product bonded with glass fibers and a thermosetting resin. An excellent sound absorption board that can be used as ceiling tiles, fabric finished panels and stretch fabric track systems and is stocked in a variety of densities, thicknesses and board sizes. With so many options, SilentFiber™ is the perfect choice for use in acoustic panels and stretch wall applications, offering excellent sound absorption properties.

Features:

- SilentFiber™ boards are rigid yet lightweight, ideal for Acoustic Panel and Stretch wall applications. Boards are available plain or with a smooth and durable mat finish.
- Available in a variety of dimensions, thicknesses and densities. Boards are easily cut to size with a utility knife.

Ratings

- Odor emission - meets ASTM 1304
- Surface burning characteristics - meets ASTM E84 and UL 723

Applications

- Home theatres
- Conference rooms
- Gymnasiums
- Industrial spaces

Acoustic Performance
