

White Acoustic Ceiling Tiles sold under our SilentCeiling™ brand are used to create a sound absorbing ceiling. With SilentCeiling™ Acoustic Ceiling Tiles, building a drop grid ceiling with excellent sound absorption properties is now more effective and more affordable than ever. These Acoustic Ceiling Tiles are made from high quality fiberglass and finished with a crisp, matte white facing. In both residential and commercial applications, SilentCeiling™ Black creates a "disappearing" acoustic tile ceiling that has a sharp and attractive look. Achieve NRC values of up to 1.0 by easily installing these lightweight grid ceiling tiles.
