

SilentCeiling™ Black Barrier™

SilentCeiling Black Barrier™ solves two problems in one as it both absorbs and blocks unwanted sound. Absorption is achieved with our highly popular SilentCeiling™ Black fiberglass board finished with a crisp, mat black face.

Sound blocking comes from the specific layer of our 1# SilentWrap™ Mass Loaded Vinyl. The vinyl resists the passage of sound waves and reduces the transmission of airborne noises. It will also keep sound within a particular area, while reducing the disturbance to other rooms.

SilentCeiling™ Black Barrier is also capable of creating a “disappearing” black acoustical tile ceiling with excellent sound absorption.

Applications

Residential and Commercial –any space where reverberation or reflected noise are an issue.

- Home theatres, media rooms
- Recording and broadcast studios
- Clubs, restaurants, entertainment facilities
- Theatres and performing arts spaces

Specifications

Item # SCB.2203.1B1
1" 23.75" x 23.75" SilentWrap™ **2' x 2'**

Item # SCB.2403.1B1
1" 23.75" x 47.75", SilentWrap™ **2' x 4'**
