## SilentFiber<sup>™</sup> Polyboard

#### **TECHNICAL SPECIFICATION**

SilentFiber<sup>™</sup> Polyboard is a sound absorbing polyester board made of synthetic fibers and is available in multiple thicknesses and densities. Polyboard is environmentally friendly and contains no formaldehyde, VOCs, glues or binders. Polyboard contains no binders that can bleed through to expensive fabrics. SilentFiber<sup>™</sup> Polyboard is non-allergenic, non-toxic and is lightweight.

#### **Features**

- Recycled Content: 60% post consumer content, 100% recyclable
- Acoustically rated for sound absorption
- · Class A fire rated
- Tackability: SilentFiber Polyboard has excellent tack qualities
- Impact Resistant: impact resistant and will not expand, shrink or warp with time.
- Zero VOCs Greenguard certified
- · No formaldehyde

#### **Applications**

- Gymnasiums
- Conference rooms
- Theaters
- Office partitions
- Acoustic panels, tackboard
- Ceilings
- Auditoriums
