# Installation Guide: SilentFiber™ Diamonds

Wall Mounting SilentFiber™ Diamonds:
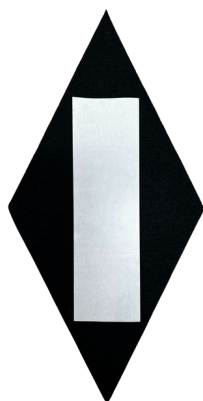

1.) Locate the area on the wall where the diamonds will be placed.

2.) Clean the wall surface with a damp rag or duster.

3.) Peel the white layer off of the adhesive backing on the back of the diamond, exposing the adhesive backing.

4.) Place the diamond on the wall, and press firmly along the surface.

5.) Diamonds may be stacked to create a 3D look, and can be placed flush with one another.

6.) For Spacing: Using a ruler, or any uniform straight edge, maintain the same distance of separation between each diamond.
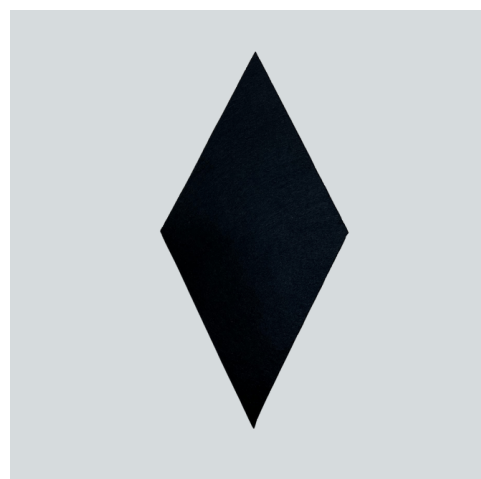

*For concrete walls:

- Use glues or adhesives to adhere the diamond to the wall.

Clean the wall or surface

Peel the adhesive backing

Press firmly in place on the wall

Peel & Stick = Simple Installation!
